Performing a cross-section of Tribal, Egyptian and Cabaret styles, the world-famous **Bellydance Superstars** exhibit an intoxicating spectacle that transports the audience to a distant time and place while stimulating all the senses. Taking an ancient art form into the mainstream, they have garnered international acclaim from critics, instructors, dancers, and fans alike.

The troupe's current show, "Babelesque," features all new choreography, costumes and production. Dressed in luxurious colorful costumes led by main choreographer and artistic director Jillina, the Superstars beautifully display the true art of bellydance. The exotic sounds of haunting melodies echo through every venue, and the dancers perform in front of an amazing backdrop with washes of lighting and flame-effects. This is a show that no culture or dance enthusiast should miss!
