# BOOST Safari Exploration

## Program Mission Statement:

To provide a safe, fun, and engaging environment to support children's learning, friendships, and creativity.

### Days

Tuesday, Wednesday & Thursday

### Dates

6/22/2021-7/8/2021

### Time

1:00-3:00

## **BOOST Target Skills**

### **Communication**

(listening to others and using gaze, gestures, spoken words or symbols to share ideas and needs)

### **Joint Attention**

(gaze, gestures and words to share with others)

### **Joint Engagement**

(social connection- noticing a partner and the activity)

### **Emotional Regulation**

(calm, cool and ready to learn)

### **Social Play**

(learning skills to play with adults and peers)

## **JASPER**

(Joint Attention, Symbolic Play, Engagement, and Regulation) is a play based intervention that will be offered in our BOOST classroom. JASPER aims to help children with autism learn to play and communicate with others.
