Internship Program
Teach German in Pre-School or Elementary School

The Department of German and Scandinavian is collaborating with schools in Eugene to offer an internship program on teaching German. The program aims at enriching children up to the sixth-grade level, using new and fun-driven teaching approaches. The department can offer this exciting opportunity to at least sixth dedicated undergraduate majors or minors in German, who enjoy working with children and possess a high proficiency in the language.

The program will run through both Winter and Spring Term of 2014 - 2015. In order to prepare for the assignment, students will receive preparatory training during the Winter Term. This will be followed by 4-5 weeks of teaching during Spring Term, and around the sixth week students will prepare a report about their teaching experiences.

If you are interested, please submit a brief resume (including names of three references) and a short statement (1-2 pages) explaining your interest in this project and your qualifications.

Hard copies of these application materials should be submitted to Matthias Vogel by October 30, 2013

GER 409: Internship - Teaching Fun with German
2-4 credits

Will count towards the German Major as a language course and/or towards the SLAT certificate. Questions may be submitted to Matthias Vogel via e-mail at matvogel@uoregon.edu
