Course Materials: None! Just come to class with a positive attitude and a desire to speak German!

Goals: We will do a variety of activities with the goal of engaging in German conversation and discussion. Past activities have included reading and discussing short texts, discussing films, role-playing, reading and writing poetry, playing board games, and talking about our lives and backgrounds as students get to know each other.

Attendance is mandatory. This class is P/NP, and there are no assignments, hence, attendance and participation are mandatory for you to pass the course. You will be allowed one absence with no questions asked, as we only meet once a week, and with such a small group, missing one person can result in a major change in the atmosphere of the course. After the first absence, you will have to contact me with documentation as to why you must miss another day of class.
