This compendium is for all to use. While I have taken the time to verify every site listed below when they were initially added, that’s also the last time I have checked them. Therefore I ask, you, the user, should a link no longer be valid, or the link contains incorrect information, please e-mail me at stevenwj@sbcglobal.net and I will have the link removed or corrected. It is only through your efforts this compendium can remain as accurate as possible. Thank you for your help and keep on SketchUpping!

Steven.
