LC CLASSIFICATION : GENERAL EXERCISES

SUBCLASS JZ

(RECENT UPDATE)

International relations [\[H R B L D S\]](#)

Class here works on the science of international relations, i.e. analysis of contemporary international politics and policy objectives, and of national trends in foreign policy of states, as they effect the relations in the international community. Further, class here works on international association of autonomous bodies (i.e. states or organizations) and on their interaction relating to the security of the international community

For the law and the rules of conduct binding upon states in the international community, and for the law establishing and governing the intergovernmental organization, see subclass KZ or the pertinent regional class K subclasses, e. g. KJE for the regional organization of Europe
