**Future Music Oregon** is dedicated to the exploration of sound and its creation, and to the innovative use of computers and other recent technologies to create expressive music and media compositions. To this end we embrace our roles as both a focus of educational and creative pursuits. Student composers working in the FMO studios have been tremendously successful having their work presented at national and international experimental music and new media festivals. In addition to establishing a creative and intellectually stimulating environment for education, FMO sponsors a concert series featuring new electroacoustic music. Past guest artists have included noted composers of electroacoustic music such as Allen Strange, Carla Scaletti, Barry Truax, Dennis Miller, Chris Chafe, Jim Sain, Gary Lee Nelson, Mark Applebaum, Brian Belet, Peter Terry and Gioacchino Rossini.
