Recycling Facts/Tips

*The average American uses **650 lbs.** of paper a year.
* One ton of paper from recycled pulp saves **17** trees, **3** cubic yards of landfill space, **7000** gallons of water, **4200** kWh (enough to heat the average home for half a year), **390** gallons of oil, and prevents **60** pounds of air pollutants. (*Courtesy of Weyerhaeuser*)

****Remember that you make a difference****

If everyone at the University of Oregon reused a refillable mug once a day, we'd save:
20,000 disposable cups a day, 140,000 a week
and 7.2 million disposable cups a year.

REDUCE your consumption

- Buy products with less packaging
- Make double-sided copies
- Buy recycled products when possible

REUSE what you have

- Reuse grocery bags
- Use refillable containers

RECYCLE everything that you can and eliminate solid waste.

USE WISELY, PAPER = TREES
