Travel around Eugene and observe and PHOTOGRAPH design principles in designed landscapes.

Submit 8 PHOTOS with noted design principle and diagram.

Photos should be on 8 1/2 x 11 paper (copy OK).

You may partner with another student for this project.

1. Scale
1. Structure
1. Circulation
1. Enclosure
4. Order (4 different organizational patterns)

"True possession of a scene is a matter of making a conscious effort to notice elements and understand their construction." - Alain De Botton

Central organization
Circular form
Enclosure by level change – steps
one plane / wall of building
natural vegetation
