## Constituent structure analysis

Tom Payne

Analyze the following naturally-occurring English clause, first with labeled brackets, then with a constituent structure tree (example from United Airlines *Hemispheres* magazine, December, 2003, page 15).

Note: There are some features of this naturally-occurring sentence that are not treated in chapter 6. You will have to provide your own analysis as best you can, using the techniques and tests provided in the chapter.

Taylor was the model for the thousands of men  
and women who came after him and who today  
dedicate themselves to making aviation the reliable  
mode of transportation it has become.
