Math 261: Homework 2 (due W October 15)

Part I: reading.
Read chapters 3 and 4 from the text. This should be material you feel more comfortable with!

Part II: not too hard questions from the book.
   Ch. 2: 1, 2, 5, 12.
   Ch. 3: 1, 3, 4.

Part III: harder questions.
   Ch. 1: 22.
   Ch. 2: 6 (nice question), 7, 26.
   There are many beautiful questions at the end of chapter 2 which there’s not time to give you for homework. Why not look at some others too?
