The following petition by W. E. Johnson was granted:

To the President and Faculty of the University of Oregon:

The Committee on Senior Credit has determined that I have earned four more than the required number of credits in preparatory work. This, of course, increases the number of college credits yet to be earned this year to four more than I had anticipated.

Since I was unavoidably compelled to enter the University almost two months late, and further, because I wish to do some outside work, I therefore petition your honorable body to permit third year German, which counted four credits preparatory according to the catalogue of 1898-99, to be placed on the list of my college credits, in order that a part of the burden may be removed from my present year's required work. I ask this because I understand that, at the present time, these may count as college preparatory work.

Very respectfully,

W. E. Johnson

The following petition by Allen K. Eaton was read and rejected:

To the Faculty of the University of Oregon:

I respectfully petition to be rec-
I have heard of course 103 (Biology) which is required in the Sophomore year for a B. degree.

Reasons for this petition are:

1. I applied for the course in the my Sophomore and Junior years but time conflicts crowded it out. [Last year the conflict was with Junior Latin]

2. This year it (Biology) conflicts with and crowds out work which is necessary for my future work.

3. Biology is not necessary for my future work.

4. By the end of this year I will have earned at least 14 credits - 12 more than is required - which I petition may, under the circumstances, be considered as substitutes for the 3 credits in Biology.

Respectfully,
Allen E. Eaton

It was moved and carried that Allen E. Eaton be required to conform to the requirements of the Faculty and take Bi. biology.

No further business Faculty adjourned.
