REPORT STUDENT ACTIVITIES COMMITTEE Moved by Prof. Sheldon that the following report of the Student Activities Committee be received, and that in accordance with their recommendation two committees be appointed, one to investigate the amount of time necessary for adequate football training each day and the second to investigate social activities, including oratory and debate. The motion carried. The chair appointed for the first committee the original Student Activities Committee, consisting of Profs. Pearborn and Boynont, and Mr. Hayward; for the second committee, the Student Affairs Committee, consisting
of Prof. Hawthorne, Carson and Glen, plus Prof. Dearborn.

THE REPORT  "Findings of Committee on Student Activities

1. Football  Compared with other colleges, we are on the same basis in regard to number of contests and days absent from university work.
   Local conditions indicate (a) Present system of training is too strenuous for the average student to do good university work. (b) Long trips are undesirable.

2. Baseball  Compared with other colleges, we are below the average in contests and days absent. No local trouble reported.

3. Track  Compared with other colleges, we are slightly above the average in contests and days absent. (Due to unusual schedule last year.)
   Local conditions indicate long trips are undesirable.
   In general there is a tendency toward restriction in athletics.
   Practically no rules governing number of absences and number of contests other than sanction of schedules by athletic committee.

4. Social Conditions  Interfere seriously with university work - specifically (a) when occurring in mid-week (b) during the first month of the college year

5. Oratory  Interferes slightly with the work of a few seniors just before the close of college year.

6. Debate  Interferes very seriously with the university work of a few men for about four weeks preceding the contest, but this interference depends largely on personality or other activities of the man.

7. Periodicals  The Oregon weekly interferes seriously with the university work of its editor. Criticism probably due largely to the fact that the editor is too often interested in other student activities.

Recommendations

1. Football  A less strenuous system of training.

2. Baseball  None

3. Track  None

4. Social  Some restriction during the first month.

5. Oratory  Limit the number of activities in which the student may take part at any one time. (Similar to the athletic regulation.)

And further, because of the very diverse character of the student activities considered by this committee and because of the further analysis required on certain of these activities, the present committee recommends that it be dismissed and special committees appointed by the President (the number to be at his discretion) to take up in detail the subjects requiring further consideration.

Respectfully submitted

EXTENSION OF THANKSGIVING VACATION

The following petition was received from the students of the University:

"To the President of the University of Oregon:

We, the undersigned, students of the University, do hereby respectfully and humbly petition you for an extension of the Thanksgiving recess so that it shall begin on Friday, the 20th of November, 1908, at 4 p.m.

Our reasons for making this request are:
That we realize that over forty percent of the students of the University come from points north of Salem, mainly from Multnomah County, and it would be exceedingly expensive for these students to make two trips to Portland within the week.
That every student in the University wants to see the game on the 21st of November and many who cannot afford both are willing to sacrifice the four days of recess rather than miss that game.
We do not think the University would be the loser if they were allowed to see the game and have four days at home also."

(Signed by 353 students)

Moved by Prof. Glen, who announced that he would oppose the petition, that the faculty recommend to the Executive Board that the petition be granted.

Moved by Prof. Schafer, as a substitute motion, that (1) this faculty feels in doubt as to its authority in regard to this matter and (2) that this faculty requests the President to submit this request to the Board, with such additional information as he may wish to give and to report their answer back to the faculty.

Moved by Prof. Glen, as a substitute to the substitute, that students who wish to attend the C.A.C. game and be absent in Portland during the week be excused on condition that the work be made up, and that all going report first to the Office. The motion was lost, and the first substitute motion carried.

Special meeting of the faculty.

Moved by Prof. Straub that the petition of the students of the University asking for an extension of the Thanksgiving recess so that it shall begin on Friday, the 20th of November, 1906, at 4 P.M., be granted. The motion was lost.

GLEE CLUB SCHEDULE Moved by Prof. Straub that the following petition of the manager of the Glee and Mandolin Clubs be granted: The motion carried.

"Eugene, Ore., Nov. 15, 1906.

To the Members of the Faculty:

In behalf of the Glee and Mandolin Clubs, I wish to petition for your sanction the following concert schedule: Friday, Dec. 4, Eugene; Tuesday, Dec. 15, Salem; Wednesday, Dec. 16, Portland; Thursday, Dec. 17, Hood River; Friday, Dec. 18, Pendleton; Saturday, Dec. 19, Baker City; Monday, Dec. 21, La Grande; Tuesday, Dec. 22, The Dalles.

In making out the above schedule, I was aware of the faculty's disapproval of the arrangement of last season which required a seven day absence from college work on the part of the members of the clubs, and I endeavored to conform my schedule to the faculty regulation in regard to trips and tours. To that end I have reduced the number of engagements to seven, cutting out the cities of Albany and Walla Walla, which number I believe to be a minimum from the standpoint of economy in expenses. This arrangement will, however, necessitate an absence from classes of three and one half days, or one half of a day beyond the faculty limitation. It would be impossible to overcome this by beginning the tour one day later and extending it to the 23rd owing to inability to get other dates at Portland and Baker City. In case your decision should be adverse to my arrangement, it would mean the canceling of the Salem date, which I believe to be inadvisable both from an advertising and a financial standpoint. Therefore, I am petitioning you for a three and one half days' leave of absence from classes, to begin on Tuesday, December 16th.

(Signed) Merle R. Chessman, Mgr. Glee and Mandolin Clubs."

SYSTEM OF GRADING The following resolution was offered by Prof. Schafer:

Resolved, that in place of the present system of grading the
work of students there shall be substituted the following:

1. "S" - Satisfactory, to indicate that the required minimum
   amount of work has been done in a proper manner.
2. "U" - Unsatisfactory, to indicate the required minimum amount of work has not been done in the proper manner.

Unsatisfactory work must be made satisfactory according to the directions of the professor under whom the work was originally taken. Students whose work shows unusual excellence by reason of markedly surpassing the stated requirements of the course, shall receive honorable mention."

As the mover of the above resolution, Prof. Schafer would expect from its adoption the following advantages:
(a) It would necessitate a clear definition of minimum requirements on the part of professors and instructors.
(b) Partly in consequence of the clearer definition of requirements, and partly through the elimination of the "C" and "D" grades, both students and teachers would fix their attention more fully upon the character of the work done.
(c) It would provide an adequate stimulus to those who are disposed to do exceptional work in particular courses.
(d) It would remove the danger of students classifying themselves as "poor" or "indifferent".
(e) It would eliminate a bit of traditional educational hypocrisy (for the pretense of a close gradation under the old system is pretty generally a sham), and would put both teacher and student on a wholesome basis of honesty.

Moved and carried to accept the resolution for consideration and discussion, and that it be referred to a committee of five, two members of which shall be the President of the University and the Head of the Department of Education. The other members: Schafer, Schmidt, McAllister.

REPORT
ATHLETIC COMMITTEE

The report of the Athletic Committee was adopted
as follows:

"To the Faculty:

Your committee appointed to consider the advisability of
limiting football training submit the following:

(1) The hours required for football training, 4 to 7:30 P.M., are
reasonable.

(2) A stringent regulation limiting training to these hours does not
seem advisable.

THEREFORE, your committee recommends that the following statement
be sent annually to the football management and to members of the team:

In the judgment of the faculty, no student should be
encouraged by request or implication to devote more than the
hours 4 to 7:30 P.M. to football training, and, further, that
any tendency to exceed these hours be definitely discouraged.
This training to be construed to cover all work devoted to the
development of the team.

2. Students who shall have completed in a thoroughly satisfactory manner thirty semester hours of regular university work in two semesters of residence shall be eligible to candidature for honors.

3. Eligibles desiring to become candidates for honors shall file their application with the Registrar by the end of the first week
of the second year of residence, accompanying the application with cards prepared by their advisers showing in detail the courses that must be successfully carried - in addition to 120 semester hours of regular prescribed and elective work - in order to entitle a candidate to highest honors.

(4) The special courses assigned to a candidate for honors may include (a) courses outlined by his department, as indicated under (1) above; (b) courses outlined by some other department and selected by the student's adviser provided, the total number of courses assigned to a candidate for honors shall aggregate the equivalent of forty semester hours; and, provided, that the assignments in each case shall be approved by the University Council, either directly or through a committee composed of the President of the University as chairman and the chairman for the time being of the committees on Credentials, Advanced Standing, and Graduate Council.

(7) In the last month of his four years of residence candidate for honors shall submit to a written examination covering each of his special courses pursued, and an oral examination covering the subject matter of all or any of the courses, general or special, pursued during his four years of residence; such examinations to be conducted - so far as written - by the candidate's major department, the lists of questions being approved by an examining committee composed of the adviser or his deputies, the chairman of the Graduate Council or his deputy, and any other professor designated by the President, in whose department the candidate has carried two courses aggregating the equivalent of ten semester hours. The oral examination shall be conducted by the examining committee constituted as above.

Students receiving highest honors by vote of the University Council shall, at the time of their graduation, receive, in addition to the Baccalaureate degree, the degree Master of Arts.

* The term "thoroughly satisfactory" is understood to mean an average record of "B" under the present system of grading; in the calculation a "C" grade would have to be offset by an "A" grade. No "D's" are allowed.

Special Meeting of the Faculty.

The following report was received from the advisory committee on hazing at the opening of the year:

The Faculty of the University of Oregon.

Your committee having in charge the case of alleged hazing, of Friday evening, Sept. 24, the details of which have already been brought to the attention of the Faculty, after investigation beg leave to submit the following recommendations:
1. That the manner in which those participating all came forward at the request of the committee and freely confessed to the parts they individually took in the unfortunate affair, be given due consideration by the Faculty in determining the degree of punishment to be inflicted. These confessions were made voluntarily, except in so far as the public opinion of the entire student body came to the aid of the committee on a mere promise that in case all the participants were secured the committee would recommend leniency, but under the definite assurance that immunity would not be granted. This splendid and promising example of student cooperation in enforcing University law seems to your committee to constitute a further reason for mitigating the severity of the necessary punishments.

2. Your committee therefore proposes as a suitable punishment for Calvin Welch, Elmer Furuset, Rex Turner, LeVerne Van Marter, W. T. Eliot, John Shattuck, Charles Randall, E. J. Smith, Allyn Roberts, John Shantin, Robert Alton, Fred Strang, (Ralph Moores), Carl Huston, Chester A. Moores, E. C. Latourette, Ralph Newland, Charles Olsen, Leigh Huggins, E. D. Flynn, F. E. Myers, F. C. Stern W. L. Rinehart, M. W. Hawkins, Homer Jamison, Walter Fisher, Earl Kidder, C. B. Beer, E. C. Benson, G. F. Carter, and J. M. Moore, all of whom participated in some manner in the hazing of the Freshmen on the night of September 24th, under the impulse of class animosity, but none of whom ever violated theretofore any University regulation, so far as the committee can learn, and who now appear seriously to repent their rash and wrongful conduct, that each of them be given his choice of two alternatives:

First, to sever his relations with the University for the balance of this semester; or

Second, to present in person to the President of the University within ten days from date, a petition to the Faculty asking to be allowed to continue as a student of this institution. Said petition shall express regret for the part the student took in the violation of University law by participating in the recent hazing, and shall contain a solemn promise to uphold the regulations
of the Faculty hereafter: specifically, the student shall covenant to assist the Faculty in carrying out their declared determination to eliminate from the institution the evil of hazing in all its forms.

This petition shall be signed by the petitioner and shall be endorsed by his parent, guardian, or nearest male relative.

3. Your committee further proposes, as the most lenient treatment that can be accorded to Abe Blackman, Austin Flegel and Samuel Earhart, all of whom participated in the recent hazing, despite the fact that each of them had previously been warned and placed on probation for some infraction of University law, that each of them be suspended from the University during the present school year.

4. Your committee further recommends, as the most lenient punishment for Charles Widlund, consistent with the welfare and dignity of the University, that he be suspended from the University for the remainder of the present school year. The ground for this recommendation is found in the circumstance that when the committee asked a group of the confessed hazers whether or not they would be disposed to repeat the offense, Widlund defiantly and boastfully asserted that he believed hazing to be justifiable and that he would "indulge in it whenever it seems necessary." Although he later presented a written retraction, the committee was unable to convince themselves, by a thorough and most serious process of cross-questioning, that it would be safe to accord Mr. Widlund the privilege of remaining during the present year in the institution whose regulations he had treated with such flagrant disrespect.

P. L. Campbell,
F. G. Young,
John Straub,
Joseph Schafer.

Eugene, Oregon, October 4, 1909.

REPORT ADOPTED

Moved by Professor Glen that the report of the committee be adopted as a whole.

Moved by Professor Barnett, as an amendment, that the report be adopted with the exception of the second alternative penalty of Section 2. The amendment was lost. The original motion carried.
LIVIA BOND The petition of Livia Bond to be allowed to carry eighteen hours of class work this semester and to make up one credit and her thesis outside, next semester, was not granted for the reason that Miss Bond has twenty-four hours to make for graduation, practically one year's work.

ALFRED POWERS The petition of Alfred Powers to have credit for all of his work carried during his sophomore and junior years was granted, for the reason that his grades are uniformly A and B.

RUTH HANSEN The petition of Ruth Hansen for twenty hours for graduation was not granted, but she was allowed to take eighteen hours and to make up one year of physical training this semester for graduation.

DUDLEY CLARKE The petition of Dudley Clarke to be allowed to carry twenty hours for graduation was not granted.

ORMOND RANKIN The petition of Ormond Rankin to be allowed to carry twenty hours for graduation was not granted.

The faculty adjourned.
