SPECIAL MEETING OF THE FACULTY.

COMMENCEMENT DAY TO BE MONDAY, JUNE 17th. The Committee of the Senior Class presented the request of the Class that Commencement Day be put on Monday, June 17th as regularly scheduled, explaining that it had not been the wish of the class to have the exercises on Sunday evening, June 16th. On motion of Dr. Cloran the request was granted and Commencement exercises set for Monday, June 17th.

NEW BUSINESS

Professor Straub gave notice that at the next meeting of the faculty he would move that the University charge no diploma fee to seniors who have enlisted.

The faculty adjourned.

June 6, 1916.

REGULAR MEETING OF THE FACULTY.

MINUTES READ The minutes of the meeting of May 9th were approved with the exception that the power given the Committee of Deans to excuse absences for reasons other than sickness was interpreted as a temporary rule rather than as a permanent one.

The following members were absent: Professors Crockett, Drucker, Edmondson, Gilbert, Hayward, Kilpatrick, Lawrence, Leader, McAllister, Miller, Reddie, Straub, Schroff, Tingle.

The faculty Committee on "Student and Faculty Health and Sanitation" made the following report:

"We recommend:

1. That the faculty request the Board of Regents to create the office of University Medical Adviser, the holder of said office to be given the rank of Professor with voting privileges in the faculty meetings."
2. That it be made a rule of the faculty that all students on entering the University be required to take a medical examination and as frequently thereafter as the Medical Adviser or the Departments of Physical Education may deem necessary. It is understood that the student shall accept such treatment as the Medical Adviser may suggest unless otherwise excused by him.

3. That the faculty recommend to the Board of Regents that a fee of $1.00 per term per student be levied and paid at the time of registration to cover the cost of this medical insurance.

The student shall be entitled by the payment of this fee to:

1. Free Medical examination.

2. Free medical advice and treatment. This does not include medicines.

3. Free limited hospital service for two weeks and special rates thereafter.

It is distinctly understood that this does not include major operations, dental work, or special eye treatment.

As the scheme outlined is a medical insurance, it is expected that the fees will largely pay for this work. However, it is expected that the Board of Regents will accept some of the responsibility and so help to pay for the services and general expense of the department.

4. At their own option faculty members and employees of the University may receive examinations and treatment and limited hospital service by paying a fee of $4.00 per term for each member of the family participating in this insurance.

A. E. Casswell,
Marieet Thompson
E. S. Conklin
Dean Walker
John F. Bovard, Chairman.

Professor Bovard moved the adoption of the report.

Moved by Professor Allen, as a substitute, that the consideration of the report be postponed until the first meeting in the fall for the reason that it is planned to ask the Board of Regents for increases in salaries and the introduction of this report might tend to help make increases more difficult.

Moved by Professor Bebee as a concomitant motion that a committee of five of the faculty including the Chairman of the Athletic Committee be appointed to investigate the possibility of raising this money from the present Student Body Tax.

Moved by Professor Smith, seconded by Dr. Barnett, as an amendment to the original motion that the question of the amount of the fee be left for future determination. The amendment carried.
Professor Allen withdrew his substitute motion to postpone.

Moved by Professor Howe as an amendment to the original motion that the following sentence be struck out "It is understood that the student shall accept such treatment as the Medical Adviser may suggest unless otherwise excused by him." The motion carried.

The report as amended was adopted as a whole as follows:

1. That the faculty request the Board of Regents to create the office of University Medical Adviser, the holder of said office to be given the rank of Professor with voting privileges in the faculty meetings.

2. That it be made a rule of the faculty that all students on entering the University be required to take a medical examination and as frequently thereafter as the Medical Adviser or the Departments of Physical Education may deem necessary.

3. That the question of the amount of the fees to be charged be left for future determination.

The student shall be entitled by the payment of this fee:

1. Free medical examination.

2. Free medical advice and treatment. This does not include medicines.

3. Free limited hospital service to two weeks and special rates thereafter.

It is distinctly understood that this does not include major operations and dental work, or special eye treatment.

As the scheme outlined is a medical insurance, it is expected that the fees will largely pay for this work. However, it is expected that the Board of Regents will assume all of the responsibility and so help to pay for the services and general expense of the department.

4. At their own option faculty members and employees of the University may receive examinations and treatment and a limited hospital service by paying a fee of $4.00 per term for each member of the family participating in this insurance.

After discussion, Dr. Rebec withdrew his motion that a committee of five should be appointed to investigate the raising of money for Medical Service from the Student Body Tax.

PROCEDURE FOR CREDITING COURSES The report of the special committee on the "Procedure for Crediting Courses" was adopted as follows:

1. That all instructors be required to hand in grades in all courses promptly at the end of each term to the Registrar.

2. That all courses other than term courses shall be definitely designated, and students desiring to drop such consecutive two or three term courses and receive credit for the work completed shall secure the consent of the adviser and the instructor concerned. In case of disagreement the matter shall be referred to the Committee on the Revision of Students' Courses for settlement.
3. That students leaving college at the end of any term shall automatically receive credit for all work satisfactorily completed at that time.

4. That provision III under the Course of Study be amended to read as follows:

"Each of the three groups shall find representation on the student's card during the two years to an amount of not less than twelve term hours, which shall be taken within one department, except on the agreement of the advisor and the Head of the department "concerned".

Moved by Professor Allen that the courses designated in the new catalog, which is now being printed, as being given two or three terms shall be considered, without further action, as being organized on that basis. The motion lost.

INTER-COLLEGIAL ACTIVITIES

Professor Howe, Chairman of the Athletic Council and delegate to the Pacific Coast Conference meeting to be held June 7, in Portland, asked for instructions from the faculty as to the attitude of the University of Oregon toward:

1. The discontinuance of Inter-collegiate athletics during the period of the war.

2. The abolition of the freshman rule during the period of the war.

It was moved by Professor Bates that our delegate to the Pacific Coast Conference be instructed to vote for the suspension of Inter-Collegiate athletics during the war.

Under suspension of the rules requiring one month's notice, the following report of the Committee to whom was referred the proposed legislation regarding students on probation was adopted:

STUDENTS ON PROBATION CAN NOT HOLD OFFICE

That no student who is on probation under the nine hour rule can hold any elective office or appointive office of considerable responsibility of the student body or any class, nor represent the University or his class on any team or in any public way.

That consequently any student on probation is not eligible to such office or team, and that failure to make the nine hours automatically vacates the office.
(Comment. The words underlined and the second paragraph are added by the committee. The thought is to include positions engaging the students whole attention, such as circulation manager, but not minor work like that of reporter. Inasmuch as the Government subjects candidates for military commissions to severe academic as well as military tests we recommend to the Military department that scholarly excellence be considered in making appointments, and in the revision of appointments, and that grave deficiencies in scholarship be considered as a disqualification for holding a commissioned or non-commissioned office, so far as practicable.)

Moved by Professor Young that the report of the same committee covering re-admission of students failing to make the necessary seventeen hours be re-referred to the lower division advisers committee to report at the next meeting. The motion carried.

That for this term the grade "condition"
