ENTRANCE REQUIREMENTS. The following legislation relative to entrance requirements to the University of Oregon was passed after an amendment regarding the retention of the present mathematic requirement was defeated.

Beginning with the fall term, 1929, the present entrance requirements to the University of Oregon shall be modified to conform to the following stipulations. It is understood that this is to be the minimum to be met by all students and that the adoption of these regulations does not preclude the possibility of the addition of special requirements to these minimum and uniform requirements applicable to all students. All portions of the present legislation in regard to entrance requirements inconsistent with this legislation are hereby repealed.

Plan A. Presentation of fifteen units from a four-year high school or twelve units from a senior high school. Part of these units are to be grouped into majors (a major is three units in one field) and minors (a minor is two units in one field). The distribution from a four-year high school must include two majors and three minors, of which two majors and one minor or one major and two minors must be selected from some of the following fields: English; languages other than English; mathematics; laboratory science; and social science. One of the majors must be in English. The distribution from a senior high school must include two majors and two minors, of which two majors and one minor or one major and two minors must be selected from some of the following fields: English; languages other than English; mathematics; laboratory science; and social science. One of the majors or one of the minors must be in English. No credit is granted for penmanship, spelling, physical education, or any subject classified as a student activity.

Plan B. Presentation of fifteen units from a four-year high school or twelve units from a senior high school, of which ten units in the former or eight units in the latter must be selected from some of the following fields: English; languages other than English; mathematics; laboratory science; and social science. At least three of the ten units or two of the eight units must be in English. No credit is granted for penmanship, spelling, physical training, or any subject commonly classified as a student activity.

Plan C. Presentation of fifteen units from a four-year high school or twelve units from a senior high school by students of exceptional ability as demonstrated by superior achievement in preparatory work including the classification of the student in the upper quartile of the graduating class and the unreserved recommendation of the high school principal. In addition the student may be required to demonstrate his ability by securing a high rating in a college mental test. Eight of the fifteen units, however, or seven of the twelve units must be selected from some
of the following fields: English; languages other than English; mathematics; laboratory science; and social science. At least three of the eight units or two of the seven units must be in English. No credit is granted for penmanship, spelling, physical education, or any subject classified as a student activity.

WHEREAS the University faculty, through the recent death of Frederic George Young, B.A., LL.A., dean of the School of Sociology, has lost one of its veteran instructors and one of our highly esteemed colleagues, and

WHEREAS Dean Young, during his thirty-three years of continuous activity as head of social science departments, dean of the graduate school, and later as dean of sociology, by his fine scholarly interests, his gentlemanly bearing, his far reaching zeal for investigation, his constructive efforts toward the upbuilding of graduate study, his active promotion of public service movements for the betterment of the commonwealth of Oregon in all its social relations, has rendered a lifetime of service to the cause of higher education and social advancement.

BE IT RESOLVED, That the University of Oregon Faculty express its recognition of his cooperation, his counsel and his constructive efforts while associated with us as colleague and friend and that we, through this resolution, convey our profound sympathy to the bereaved family and the many friends formed by Dean Young throughout a lifetime so full of vital contacts and dominated by the ideal of social service.

"We congratulate Dr. Hall on the large appropriations he has secured from the legislature under adverse conditions, and on the munificent gift secured for our Medical School from the Rockefeller Foundation."

GRADE REPORTS. The special committee appointed by the President to investigate tardiness in filing term grade sheets reported as follows:

"Your Committee appointed to investigate tardiness in filing term grade sheets finds that the difficulty is caused for the most part by a comparatively small number of instructors who are habitually late with all of their grades irrespective of the size of their classes, and that promptness on the part of these instructors in the future will make the adoption of other remedies unnecessary.

"Dean Sheldon's absence from the state prevented his attendance at the meeting of the Committee."

CHANGE IN EXAMINATION SCHEDULE. The following motion of Dr. Caswell was adopted by the faculty: that the final examinations for the current winter term shall be given during the period Tuesday to Saturday, March 12 to 16, inclusive, and classes which would otherwise meet on Tuesday, March 12, shall be held on the preceding Saturday. MONEY AVAILABLE FOR LIBRARY BOOKS. President Hall announced that five thousand dollars was available for library books due to the successful completion of the Gift Campaign in Eugene.

WITHDRAWAL FROM COURSES. The problem of limiting the time of withdrawal from courses which was referred to the Scholarship and Academic Requirements Committees for recommendation was discussed by Dean Gilbert, Chairman of the Scholarship Committee. Dr. Gilbert pointed out that in the light of a study made by Dr. Taylor in regard to withdrawals from courses the committee did not feel justified in changing the time at which withdrawals should cease. However, he presented in the name of the Committee the following recommendations:

1. Beginning with the fall term of 1929-30 the grade of "drop" shall be eliminated.
2. Instructors shall be asked at the end of the fourth week of each term to submit a complete list of students who have shown a tendency toward habitual absence from class during the initial period. These reports shall be referred to the Dean of Men and the Dean of Women who by conference with students reported shall determine whether there is a valid reason for such absences. In case the student has been careless or inclined to discontinue his work withdrawals shall be immediately taken from courses affected in order that the records shall be cleared at the earliest possible date.

3. Withdrawal blanks shall be revised in the direction of requiring from instructors more detailed information regarding student’s attitude and standing at the time withdrawal is taken. This information is to be available for the Registrar, personnel division, and the Dean of Men and the Dean of Women in studying conditions under which withdrawals are taken.

This motion was seconded and passed.

OUTLINE FOR THE YEAR. President Hall gave a brief survey of the accomplishments during the past year and indicated the items upon which he hoped progress could be made during the year 1929-30. The items particularly mentioned were an experimental attitude of the faculty toward the new survey courses; an investigation toward the improvement of college teaching; a critical attack on the problem of examinations; a scientific interest in research; and the hearty cooperation of the faculty toward the development in the student body of a sense of responsibility.

INTRODUCTION OF NEW FACULTY MEMBERS.

President Hall introduced the following administrative officers and deans:

Mrs. Virginia Judy Eaterly, Dean of Women, who had been on leave 1928-29.

SPECIAL MEETING OF THE FACULTY

The meeting was called to order by President Hall. A quorum being present the following business was transacted. The minutes of September 26 were read and approved.

HONORARY DEGREE. Upon the recommendation of the Graduate Council the faculty voted to grant the honorary degree of Doctor of Laws to Mr. Samuel Colcord of New York City.

RELATION OF LAW CREDITS TO UNIVERSITY. Dean Carpenter presented the following university regulation which was seconded and passed:

"In the interpretation and application of University regulations one year, or fraction thereof, of work done in the Law School shall have a corresponding credit value with work done in other departments and schools."
ELIGIBILITY FOR MIAMI TRIP. Professor Howe presented the names of three members of the football team whose scholastic records were so poor that the Scholarship Committee was unable to grant permission for them to accompany the team to Miami. He asked the faculty to consider the cases and decide whether or not the men should be permitted to go in spite of their scholastic record for this term. It was pointed out that the men were perfectly eligible for the trip insofar as the Pacific Coast Conference rules and regulations were concerned. After considerable discussion the faculty voted to refuse permission to Austin Colbert, Charles Spear, and Irvin Schuls to accompany the team to Miami.

There being no further business, the meeting adjourned.

REGULAR MEETING OF THE FACULTY

The meeting was called to order by President Hall. A quorum being present the following business was transacted. The minutes of November 21 were read and approved.

REPORT ON CLASS ATTENDANCE AND EXCUSES. Dr. Conklin, Chairman of the Personnel Council, reported to the faculty on the problem of class attendance and excuses. He pointed out that the Personnel Research Bureau was anxious to make a study of this problem if the faculty thought the situation warranted such a study. He pointed out, however, that it was necessary for the Bureau to have some definite information on excuses and absences and that the hearty cooperation of the faculty would be necessary in order to obtain such data. A motion was made, seconded and passed that the faculty cooperate in making such a study.

THE QUESTION OF FILIPINO STUDENTS. Dr. W. D. Smith, Chairman of the special committee studying the problems in connection with the enrollment of students from the Philippine Islands, asked the faculty for an expression of opinion with respect to the problem. The general consensus of opinion seemed to be that the type of student from the Philippine Islands was improving but that a study of the problem should be made by the Pacific Coast universities as a unit.

ACADEMIC COSTUMES FOR COMMENCEMENT. Professor F. S. Dunn presented the following motion which was seconded and passed: That faculty members appear in academic processions at Commencement in academic costumes.

President Hall was asked to appoint a temporary committee to study the problem and secure rental and purchase prices of the various gowns. The following committee was appointed: Dean John F. Bovard, Chairman; Dean John J. Landsbury; Professor F. S. Dunn; Mrs. Alice Ernst; Miss Madea I. Kerns.

The meeting was called to order by President Hall. A quorum being present the following business was transacted. ELECTION OF ADVISORY COUNCIL. Dr. Gilbert brought up for consideration the election of an Advisory Council. He stated that Dean Sheldon and Dr. Conklin were the hold-over members for the coming year and that it would be necessary for the faculty to elect two deans and two professors, associate professors, or assistant professors who were not deans. After two ballots the following people were elected: Dean Gilbert, Dean Carpenter, Dr. Boyer, Dr. Barnett. The Advisory Council for the coming year consists of the following members: Deans Sheldon, Gilbert and Carpenter, and Doctors Conklin, Boyer and Barnett.

Reorganization Plan

1. The Graduate School shall have control of all graduate work leading to other than strictly professional degrees. A copy of all records of graduate work and of the Graduate School shall be filed in the office of the Dean of the Graduate School.

2. There shall be a Graduate Faculty. The Graduate Faculty shall be composed of those members of the General Faculty who are offering courses eligible for credit in the Graduate School.

3. The general regulation and administration of the Graduate School shall be in the hands of the Graduate Dean and Graduate Council, who shall draw up the general rules common to all the different Divisions (hereinafter provided for), such rules to be subject to approval of the Graduate Faculty.

4. The Graduate Council shall consist of ten members, inclusive of the Dean, to be appointed by the President, and of these, two shall be appointed from each Divisional Group on the campus, one from the Medical Group, and two at large. No two shall come from one department of the College of Literature, Science and the Arts or from any school outside of the College.

5. The Dean shall be chairman and executive officer of the Graduate Council; he may, with the approval of the President, call the Graduate Faculty in session, and in the absence of the President, shall preside over meetings of the Graduate Faculty.

6. For the purpose of better development and control of graduate study, the Graduate School shall be organized into four Divisions, as follows:

1. Natural Science: Chemistry, Geology, Mathematics, Mechanics, and Astronomy, Physics, Animal Biology, Plant Biology, Physical Education, Psychology;

2. Medicine;

3. Language and Literature and Fine Arts: English, Germanic Languages, Greek, Latin, Romance Languages, Art, Music;

4. Social Science: Business Administration, Economics, Education, History, Journalism, Law, Philosophy, Political Science, Sociology.

7. In each Division there shall be a Divisional Council, appointed by the President, consisting of one member from each department or school within the Group, and presided over by a chairman to be appointed by the President.

The Divisional Councils shall work out divisional programs and standards of study, and have supervision over departmental study programs including requirements and prerequisites, theses, and examinations, and whether such programs be laid down for the department generally or for individual students in the department. The formulation of the general departmental programs, and the working out and direction of the programs of individual students shall remain with the department.
A Divisional Council may pass regulations supplementary to the general rules of the Graduate Council and applicable only to the Division, provided that such regulations do not conflict with the general regulations of the Graduate Council. No Divisional Council shall have authority to waive or supersede any of the minimum requirements specified in the general rules of the University regarding residence, equivalence of institutions, degrees, preliminary or final examinations, or theses.

At the request of a Divisional Council, or of the department or school itself, a department or school not a member of the given Division shall be represented in the Divisional Council for purposes of consultation on matters directly concerning the department, such department or school not to have a vote.

There being no further business, the meeting adjourned.

A colloquium of the faculty on the question of the Library will be held next Friday, May 9, in Room 110, Johnson Hall.

A representative of the Survey Commission will be on the campus on May 8, 1930, and the entire Commission will be here Monday, May 12. Deans and others who might be called upon for conference were requested to hold themselves available.

Mimeographed copies of administrative rules pertaining to faculty members were distributed some time ago and attention was called to the inconvenience caused by minor violations thereof.

Copies of the "Outline of Studies for Oregon Mothers dealing with Problems and Policies of the University of Oregon" are being sent heads of departments and a perusal thereof was recommended to all faculty members.

1. That the number of hours in practical music which may be counted toward a degree in Arts or Science be extended from the present allowance of six to twelve.

2. That the faculty authorize the degree of Bachelor of Music Education.

The motion was seconded, and after discussion thereon, the two resolutions were separately put and carried.
Dean Landsbury announced the following statement of policy of the School of Music: "that the amount of credit per term allowed for one private half hour lesson per week in any major instrument for which adequate literature exists be changed from one-half to one credit, provided the student at the time that such individual work is being undertaken is registered in and receives a passing grade in the class courses in the Science and History of Music appropriate to his state of advancement."

HONORARY DEGREE MOTION. Dean Rebec, on behalf of the Graduate Council, reported upon Dr. Barnett's motion which had been made at the meeting of March 11, 1930; namely, "that the faculty shall make no recommendation for the granting of honorary degrees," and announced that the Graduate Council recommends that the motion of Dr. Barnett be acted upon adversely by the faculty.
