

Solve the puzzle to read a holiday quotation. Solve CLUES (A through W) to fill in blanks, then transfer letters to squares in the GRID (see example 69A). Work both directions, using “guessed” words in the grid to fill in blanks for clues. **Bonus prize:** The first column of clues (reading down) reveals the title of the source material. (**Hint:** The author is Dylan Thomas.) **Want more?** For crosstics and **cryptograms**, scroll to the very end of www.uoregon.edu/~wright
